

Beijing 2016 Stage 1 Report

2016IFMAR World Championship

STAGE 1 REPORT

Beijing Fengtai Model Auto Training Center feels very honored to host IFMAR World Championships. On behalf of Beijing Municipal Bureau of Sports and Feitai Bureau of Sports, we sincerely welcome all participants from all over the world. We promise that this World Championship will adhere to the principle of fairness, and provide contestants with a comfortable and enjoyable environment and atmosphere.

This year's IFMAR World Championships take place at Beijing Fengtai Sports Center. It is a large, well-equipped R/C track of China, just the outdoor 1/10 Electric Sedan Track covers an area of 2800 square meters.

There are indoor and outdoor tracks for this year's event. Of which the outdoor 1/10 Electric Sedan Track is a permanent Asphalt track and the indoor 1/12 Electric On-road Carpet Track is temporary for the event. To provide contestants the best experiences, all tracks will be built to international standards. In addition, the race area stadium also sets up spectator seats, sponsor advertising area and entertainment facilities. Control desk, media area, interview area and work area are all inside the race area stadium.

We promise to provide a great atmosphere, fair and open competition environment to contestants from all over the world.

If you have any question during the event, feel free to ask staff for help. Thank you again for participating 2016 IFMAR world Championships.

Notice

- 1) Ban on flying vehicles
- Any flying vehicles are banned over Beijing

2) Time Calculation

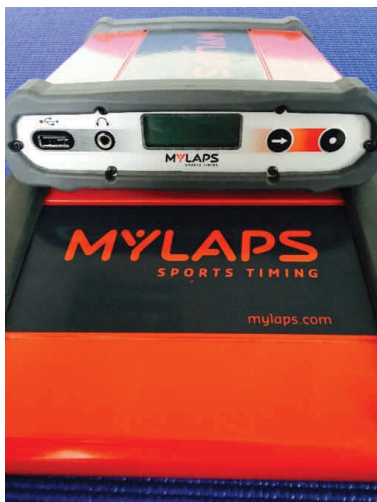

- The lap and time is calculated according to the fundamental regulations of IFMAR
- We plan to use Livetime Software and Mylaps hardware as the time system.
- ◆ Mylaps RC Timing System is reliable.

Notice that RC4H is a two-wire connection. Both old and new time systems are compatible with the RC4H.

- Mylaps RC time chip
- ◆ The timing chip is mounted on each vehicle / ship, and a special signal is sent to the signal line to identify the identity of the participant and record the exact time when the chip is passed through the return line.
- Event timing

The timing system has the following functions.

- a) The list of participants
- b) Data collection: the identity of the participants, the number of laps and time calculation
- c) Official record processing, printing and publishing
- d) Upload the results to the mylaps.com

3) Power

- The standard of electricity is 200V, 50HZ in the field.
- The sockets in the repair area are for charging only.

- The participants are supposed to bring their own charging cable, plug adapter and transformer if they need.

4) Visa and entry information

- The participants need to hold a passport. Apply for a visa in the Chinese embassy. We recommend a tourist visa due to the nine-day competition period. As each country is not the same, the participants should base on their country's situation.
- It generally takes one month to get your visa. Please consult the relevant departments in advance.
- After entering China, you should prepare your passport with visa, residence permit or other relevant materials, travel card, Entry registration card and other international travel documents. (If you have permanent residence permit for foreigners, don't need to fill in the Entry registration card)
- After entering China, you need to accept the border inspection. Immigration documents need to be covered a stamp by Chinese customs.
- The process after arriving the airport for all participants

1、 Flight arrival → 2、 Accept quarantine inspection → 3、 Accept border inspection → 4、 get your luggage → 5、 accept the customs inspection → 6、 leave the airport
